

California OES Weather Threat Briefing

Monday, November 15, 2021
9:00 AM PST

Day 1 (Monday): Areas of dense fog will continue across portions of the Central Valley through early afternoon. A storm will produce gusty winds and light precipitation across far northern California today.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

11/15/21 - 11/21/21

Monday-Sunday

- Areas of dense fog will continue through the early afternoon hours across the Central Valley Monday, producing poor visibility
- A couple rounds of gusty winds and light to moderate showers are expected this week, first across far northern California on Monday, then potentially more widespread across northern California on Thursday into early Friday
 - Accumulating snow could impact travel along the Sierra passes for the Thursday into early Friday storm system
- Another weak to moderate Santa Ana wind event is possible across southern California next weekend, with elevated fire weather concerns possible
